Lost in Translation

1. **Poor API designs** – Exceptions AJPES, CRO, CH -> DE has no API
2. **No interoperability**
3. **90% unstructured data** – Companies House leads the way

5 steps to ignite the sector!

<http://i838.photobucket.com/albums/zz302/limewithpie/matchstrike2.png>

1. Implement and go Beyond the PSI
2. Focus on Data, Accessibility and Availability -> Embrace the API Economy
3. Reduce costs to reasonable and non-prohibitive levels (PSI) -> but ensure funding for #2
4. Implement and Agree on common data sets & interoperability (XBRL good start)
5. Implement common copyright and re-use framework (PSI)
